CAREER OBJECTIVE

Final year Computer Science Engineering student who builds web and mobile apps with React, Express.js and Spring Boot. I use Git and GitHub for my projects and have worked with MySQL, REST APIs and Docker. I am looking for a role where I can work on real projects and keep improving as a developer.

TECHNICAL SKILLS

Programming	JavaScript, Java (basic), Python, SQL
Frontend	HTML, CSS, Bootstrap, Tailwind CSS, React
Backend	Express.js, Spring Boot, REST APIs
Database	MySQL
Mobile	React Native, Expo Go
Tools	Git, GitHub, Docker, VS Code, Arduino IDE, Claude AI
Concepts	OOP, Operating Systems
Practice	LeetCode, HackerRank

PROJECTS

Jarvis AI Voice Assistant | Python

- Voice assistant that opens apps, YouTube and VS Code, creates files, plays songs and gives the temperature.
- Starts with a double clap and speaks using the ElevenLabs API. API keys are kept in a .env file.

Notes App | React Native, Expo Go, JavaScript

- Mobile app to create, edit, delete and manage notes, built with React Hooks and Expo Go.

Portfolio Website | React, Tailwind CSS

- Personal portfolio with Home, About, Education, Skills, Projects and Contact sections.
- Built from reusable React components and styled with Tailwind CSS. Code is on GitHub.

EDUCATION

B.Tech, Computer Science Engineering 2024 – 2027
Bharat Ratna Indira Gandhi College, Solapur | DBATU (Dr. Babasaheb Ambedkar Technological University)

Diploma, Computer Engineering 2020 – 2024
MSBTE | 72.23%

SSC 2019

CURRENTLY LEARNING

Advanced Java, Spring Boot, SQL and DBMS, DSA, Full-Stack Development, React Native, Japanese

STRENGTHS

Quick learner, problem-solving mindset, project-oriented approach, consistent learner

LANGUAGES

English, Hindi, Marathi, Telugu
